FOR IMMEDIATE RELEASE:

October 15, 2008

Economic Strategy to Be Reviewed by Mountlake Terrace Council

An economic vitality strategy will be considered for approval by the Mountlake Terrace City Council at a public hearing October 20 at 7:00 pm in the Mountlake Terrace Library, 23300 58th Avenue West.

The proposed strategy is a framework for increasing desirable investment and sustainability, considering local business needs, strengthening the city's image, and facilitating development of the Town Center. Opportunities for expanded commercial and industrial uses are identified.

Developed in conjunction with a new sustainability program, the Economic Vitality Strategy also calls for a business-friendly environment that targets attracting and retaining clean technology businesses and medical uses. (See www.cityofmlt.com/sustain for sustainability information.)

Clean technology is a term that refers to businesses working on efficient and environmentally responsible approaches to energy, transportation, and resources. According to the strategy, Mountlake Terrace is well-suited to small and medium-sized clean technology businesses.

The proposed Economic Vitality Strategy was recommended by the Planning Commission after discussion at a public meeting October 13. It will also be reviewed by the City Council during a work/study session October 16, starting at 7:00 pm in the Mountlake Terrace Library.

More information is available at www.cityofmlt.com or by calling (425) 744-6266.
