MLT Featured in Sustainability Video

MOUNTLAKE TERRACE – New videos about sustainability have been posted on the state Department of Commerce’s website. One of the videos, “Sustainable Development 3”, features Mountlake Terrace and one other city. It can be viewed at: <https://www.youtube.com/watch?v=FMrtvQd1NUA>.

The videos are meant to help other communities learn more about how they can encourage a sustainable healthy future through good planning and follow-up. Mountlake Terrace is used as one of the prime examples.

“Mountlake Terrace is really thinking ahead about how to be sustainable and healthy well into the future,” stated Shane Hope, Community and Economic Development Director. “That’s what the new video shows and our community can be proud of being such a good example.”

For more information, please call the Community and Economic Development Department at (425) 744-6266.
