COMMUNITY RELATIONS

- **Evergreen Awards:** Nominations are open for the seventh Annual Evergreen Awards. The program builds the community's pride, enhances the community's image, and promotes conservation. Nomination forms are available online at www.cityofmlt.com and at city facilities; they will be accepted through May 23, 2015. This time of year, we are in the field taking photos of the nominated properties.
- **Volunteer Boards and Commissions Recruitment:** The city is recruiting citizens to serve on its Boards and Commissions to help organize events, inform and advise the City Council, and get involved in the community. Volunteers use their time and talents to promote Mountlake Terrace and its events like National Night Out and Arts of the Terrace. Applications are due May 22, 2015. Visit the city's website for more details and an

application at www.cityofmlt.com, click on For Residents/ Advisory Boards & Commissions or contact Virginia Olsen, City Clerk/Community Relations Director at (425) 744-6206 or volsen@ci.mlt.wa.us.

COMMUNITY AND ECONOMIC DEVELOPMENT

- **Open House scheduled April 27 on the Comprehensive Plan update:** A public open house on a “major” update to the City’s Comprehensive Plan will be held April 27 from 6:00 to 7:00 p.m. in the Council Chambers at the Interim City Hall, 6100 219th Street SW, 2nd floor. The update covers the next 20-years, 2015-2035, based on the projected population and job growth by 2035. The Plan addresses economic development, the environment, housing, land use, transportation, recreation, parks and open space, capital facilities and utilities. The open house will have displays, maps and graphics on these and other topics. The open house will be followed by a short presentation at 7:00 p.m. as part of the Planning Commission regular meeting that evening. Draft updates to each element of the Comprehensive Plan have been reviewed by the Planning Commission and the City Council at a combined total of 24 meetings over the past 18 months. A special website (www.cityofmlt.com/majorupdate) provides more information on the update and the draft elements. The update is due to the state by end of June 2015.
- **APA Conference in Seattle supports local planning efforts:** The National American Planning Association (APA) conference was held in Seattle this year (last held in Seattle in 1999). The event was packed by more than 6,300 attendees, from every state in the Union and 25 countries, the second largest attendance in the event’s history. The Pacific Northwest’s leadership in sustainable environmental planning, technology innovation, and growth was attributed to be an attraction for the conference. More than 300 sessions were offered to hear and learn about topics including comprehensive planning, attainable housing options, climate change, walkability, urban redevelopment elements, transportation for all users, and community resiliency. Planning is very much a concern in central Puget Sound, which is expected to gain a million more people in the region by 2040, and is essential to the region’s quality of life. Some timely issues for the City are consideration of the “missing middle housing” types (options to quality housing that is attainable/affordable) and community livability. Keynote speaker Ron Sims, former King County Executive and U.S. Department of Housing and Urban Development deputy secretary, cited research showing the correlations between home address (zip code) and life expectancy and economic success, and lower crime rates in communities with amenities like sidewalks and parks. City Senior Planner Edith Duttlinger attended the conference.
- **Vineyard Park applies for Property Tax Abatement status:** Vineyard Park has submitted an application for a Final Certificate of Limited Property Tax Exemption. City staff is reviewing the application for consistency with Chapter 3.95 MTMC, Property Tax Abatement Program for Qualified Multifamily Residential Development. The purpose of the code is to encourage high-quality development in urban centers and increase multifamily residential opportunities within targeted areas. The property tax abatement is an effective incentive for new development to proceed. In addition, the economic return from new construction and increased activity generated by new residents offsets the temporary reduction in property taxes (reduction applies only to the residential portion of buildings, not commercial). Vineyard Park is located in the Town Center district, one of the targeted areas (other targeted areas are Freeway/Tourist district and areas north of 216th Street SW that

allow multi-household residential use). Once approved, the abatement is effective for eight successive calendar years. The Community and Economic Development Director is authorized to certify the project meets the criteria and issue the certificate.

ENGINEERING SERVICES UPDATES

- **Lakeview Trail Project:** A grant of \$2,080,280 will fund construction of new pedestrian and bicycle facilities along Lakeview Drive and 236th Street SW, from the Interurban Trail to I-5. The improvements will increase commuting options for residents of Mountlake Terrace and other nearby jurisdictions. They will provide safe and convenient connections for pedestrians and cyclists from west Mountlake Terrace, east Edmonds, and the Interurban Trail to the Mountlake Terrace Transit Center and the Town Center. The grant award is estimated to fund a majority of the construction costs. During the week of April 27, the contractor will be mobilizing additional equipment into the area, setting up erosion control measures, and beginning work.
- **Main Street Revitalization Project:** Based on discussions and comments received at the open house, the city is working with KPG to ensure that design improvements provide smooth flow of traffic, offer multiple modes of transportation through the Town Center, and maximize on-street parking opportunities. KPG is currently working on the 90% plans, specifications, and estimate. Universal Field Services is currently working on right-of-way activities. Design is anticipated to be complete in 2015.
- **216th Street SW Storm Improvements (52nd Avenue to 53rd Place):** This project will replace the existing storm drain pipe on 216th Street SW between 52nd Avenue W and 54th Avenue W, and on 53rd Place W to the north of 216th. Work also includes installing new catch basins, and replacing short sections of curb and gutter. The storm system, concrete curb and gutter, and paving work is complete. Minor restoration and some utility repair work remain. Expect lane closures during utility repair, but no detours.
- **North Side Water Main Improvements:** This project will construct approximately 6,500 linear feet (1.2 miles) of new 6-inch, 8-inch, and 12-inch diameter ductile iron water main, together with 13 fire hydrants and 66 water services. This project replaces undersized and/or deteriorated water mains to provide adequate fire flows and system reliability consistent with the City's Comprehensive Water System Plan. The work will take place within 215th/216th Streets between 61st and 66th Avenues, 56th Ave W between 216th and 220th Streets, 218th and 219th Streets west of 58th Ave W, and in 54th Ave W and 216th Street SW from 214th Street to 56th Ave W. During the week of April 27, work is continuing at 56th Avenue W and 216th Street. A detour will be in place for 56th Avenue W between 218th Street SW and 220th Street SW during daytime work hours. This project is expected to be completed in summer 2015.
- **236th Street SW Pedestrian Accessibility Improvements:** This project will construct 18 new curb ramps in the existing sidewalks at the corners of the intersections along 236th Street SW between 48th and 56th Avenues W. There are currently only two curb ramps along this section of 236th. The sidewalk ramps will be constructed in accordance with the Americans with Disabilities Act (ADA) requirements. The contractor has received substantial completion and will be finishing some punch list items during the remainder of April.

Upon arrival, officers located an adult male who was not breathing and did not have a pulse. Officers performed CPR until Aid arrived on scene and pronounced the male as deceased. The male appeared to be homeless and possibly living in the green belt area as there was a homeless camp set up nearby. The medical examiner arrived on scene, conducted an investigation and took possession of the body. No signs of foul play were observed and cause of death is pending on the medical examiners autopsy.

Detective Unit Update:

- Detectives cleared a case involving a local Laundromat that was being vandalized causing thousands of dollars of damage to the machines as well as coin thefts. Detectives were able match DNA evidence that officers collected at the scene to a local transient who has been identified in some other crimes recently. Charges will be forwarded to the prosecutor's office.
