- **Treatment for Aquatic Weeds in Lake Ballinger:** Lake Ballinger has become infested with invasive aquatic weeds, including Eurasian watermilfoil, fragrant water lilies and curly leaf pondweed. The thick aquatic plant beds that cover most of the nearshore area have negatively impacted boating, swimming, and fishing in the lake. Invasive weeds have also reduced water quality.

A steering committee of local residents recommended a control plan including use of burlap bottom barriers and aquatic herbicide applied to 50 percent of the lake during summer 2019. Lake Ballinger will be treated with aquatic herbicides three times between July 24 and

September 15, 2019. The first treatment was applied Wednesday, July 24. A motorized boat has been permitted on the lake in order to complete this project. Treatment is being applied to the western shore of Lake Ballinger and the northeastern section near Ballinger Park fishing dock/boat ramp.

More background information on the treatments for Aquatic Weed Control in Lake Ballinger can be found in the city's Integrated Aquatic Vegetation Plan posted on the city's website www.cityofmlt.com/DocumentCenter/View/18445/.

On July 17, 2019, Code enforcement followed up to an anonymous parking complaint involving a dark blue Toyota appearing abandoned, located at the 23600 block of 54th Avenue W. Code

Enforcement chalked the rear driver's side tire, and issued a correction notice in accordance with 10.10.190 – (Storing vehicles on a public street over 72-consecutive hours prohibited), 10.10.080 – (Parking against authorized direction of travel), and 10.10.230 – (Abandoned inoperable vehicles prohibited).

On July 24, Code enforcement returned to the location and noted the vehicle had not moved, as indicated by the chalk marks intact. Towing was dispatched and the vehicle was impounded and towed.
