This proclamation serves to thank the Main Street neighborhoods and commuters for their patience during construction of the Main Street Project along 236th Street from the Transit Center to 56th Avenue.
- **October is Domestic Violence Awareness Month:** The City of Mountlake Terrace will be participating in its 12th Purple Light Nights® Campaign. Purple Light Nights® began in Covington, Washington in 2007 and has grown nationally and globally. The goal of the campaign is to remember the victims who have lost their lives to domestic violence, show support for the countless survivors of violence, provide hope for those who are still living with abuse and increase the awareness of domestic violence issues and its affect upon children and families. Purple light bulbs (black lights) are provided to residents of the community with the intent that they be displayed during October to bring awareness of domestic violence and its continued impact on our community.

If you have a purple light, please display it throughout the month. If you would like a purple light for your home, please contact Domestic Violence Coordinator Danielle Singson at the Mountlake Terrace Police Department at (425) 744-6257 or dsingson@ci.mtl.wa.us. There is a limited supply of purple lights available at no cost. For more information on the Purple Light Nights Campaign, please visit <http://www.purplelightnights.org/>.

- **Coffee with the City October 9:** Join city officials for a casual conversation and a cup of coffee. Residents, business owners and others from the community are invited to hear what's going on in the city, provide input about city services and events, and ask questions. PUBLIC WORKS (ENGINEERING & OPERATIONS) UPDATES

- **Main Street Revitalization Project 56th/236th Intersection Closure October 6 - 11:** The Main Street Revitalization Project on 236th Street SW and 56th Avenue W is ready for base layer paving of the northern side of 236th Street SW. **The intersection of 236th and 56th will be fully closed beginning Sunday morning, October 6 and is expected to remain closed until the evening of Friday, October 11.**

With rain forecast, the end dates of the closure may shift by one or more days. Please follow our social media sites and website for updated information on any changes to this schedule.

Traffic will be detoured onto 58th Avenue W and alternate travel routes are strongly advised. Drivers should expect significant traffic delays during construction. Businesses near this intersection will remain accessible throughout the closure and we encourage the community to continue to visit them during this time.

Following this paving work, travel within the construction zone will generally return to normal until the top-most asphalt layer can be paved in warmer spring weather. Work by the city's contractor and utility companies is expected to continue throughout the fall and winter along roadway shoulders and not impact traffic.

Weekly travel advisories on construction projects throughout the city are provided online at www.cityofmlt.com/208 (traffic alerts) and are shared on social media.

- **Well-attended Rain Garden Workshop**

September 28: Residential rain gardens can provide water quality benefits for Mountlake Terrace creeks and Lake Ballinger by storing excess runoff and slowly filtering it through plants and soil. Sixty-seven people recently attended a free workshop on Rain Gardens at the Senior Center on September 28. The workshop was sponsored by the City of Mountlake Terrace, with training provided by Snohomish Conservation District. Staff from the Ballinger Organic Garden organization (BOG) also provided educational materials and gave away seeds.

The training focused on the basics of rain garden site selection, the best time of year to build a rain garden, soil testing, construction considerations, and maintenance of rain gardens. Kate Riley, the Conservation District's

Community Engagement Program Manager, discussed the District's technical support and financial incentives for rain garden site selection and construction on private property.

- **Update on Lake Ballinger Invasive Weed Control Efforts:** Results of this summer's invasive weed control in Lake Ballinger indicate the amount of Eurasian milfoil in the lake has been reduced dramatically. Lake Ballinger was treated twice this summer, July 24 and September 10, as part of a citizen-led effort to reduce the amount of invasive weeds, including Eurasian watermilfoil, Fragrant water lily, and Curly leaf pondweed. Treatment was designed to improve water quality in the lake and reduce the risk of swimmers becoming entangled. In 2018, an invasive plant survey of the lake found 16.8 acres of the lake had Eurasian watermilfoil, while Fragrant water lily covered 13.3 acres, and Curly leaf pondweed was observed intermittently. The fall 2019 invasive plant survey found no Eurasian watermilfoil or Curly leaf pondweed (even in areas that were densely infested in 2018), as well as a significant reduction in the acreage of Fragrant water lilies. Native aquatic plants were found in much greater numbers than in 2018. City of Edmonds technical staff have contributed drone footage and computer mapping of the invasive plants before and after treatment. More Lake Ballinger invasive plant survey results will be presented by Mountlake Terrace and Edmonds staff on October 15 at the Lake Ballinger Forum meeting, held at 2:00 p.m. in the Brackett Room, Edmonds City Hall, 121 5th Avenue North, Edmonds, WA 98020.
