

Sound Transit Link Light Rail Open House

Wednesday, January 23, 2019

COMMENT SHEET

Comments and concerns.

Parking proposal is insufficient for likely increase in use. Consider not only the increase in daily commuter use but also people who will begin to use the ~~the~~ free parking to take light rail to the airport and leave vehicles for extended lengths of time. Please also consider that parking on side streets is a safety concern for many of us working long hours and returning to our cars in the dark, rather than a well-lit park & ride.

If you would like the city to include you on the notification list for the Sound Transit Link Light Rail project land use, please provide your name and email address. Thank you.
