Sound Transit Link Light Rail Questions and Comments

Please share your thoughts and concerns regarding light rail. Comments will be accepted until Wednesday, January 30th.

This is just an idea about what was discussed last evening at the light rail open house. Regarding the parking issue, perhaps a temporary one or two level parking garage could be built over the current, open parking lot at the MLT Transit Center. There is truly a need for more parking there, and although I believe that fewer vehicles in the future is a worthy goal, the reality is today that many people are still in love with their vehicles. Hopefully, in the next 10 or 20 years, more riders will choose other forms of transportation to the transit center and beyond.
