FOR IMMEDIATE RELEASE:

July 30, 2010

Water Conservation Program Saves Water and Money

MOUNTLAKE TERRACE — Mountlake Terrace residents are able to take advantage of several regional programs to help conserve water. Currently there are two rebate programs that provide up to a \$100 reimbursement for the purchase of water efficient toilets and clothes washers. Rebate program information is available at www.cityofmlt.com under "How Do I," then click "participate in the water rebate program."

In addition to rebate programs, the City also encloses lawn water calendars in utility bills and has limited supplies of water conservation kits available of Mountlake Terrace residents. Water conservation kits are focused on either indoor or outdoor water use. Indoor kits contain water conserving showerhead and faucet aerator, while outdoor kits contain water conserving hose nozzles and automatic hose timers. Kits are made available free of charge on first come basis (limit one of each type) to Mountlake Terrace residents at the Utility Billing Counter of Interim City Hall.

For more information about the project, please contact Curt Brees, Public Works Director at (425) 670-8264.
