Application No. \_\_\_\_\_

## Clearing and Grading Submittal Checklist

This submittal checklist identifies minimum application elements necessary for the City to accept an application. If any of the required items are not provided, the application will not be accepted at the counter. Addresses **MUST** be assigned before intake. If your site does not have an address, contact the Permit Specialist (425-744-6267) at least ten days before your permit application appointment and have an address assigned.

**Four (4) complete construction plan sets** (all drawn to scale at 1/4 inch = one foot, minimum) and **four (4) site plans** (include all items listed under Site Plan) are required. The application fee (plan check fee) is due at intake. Any additional fees are due at issuance of permit.

Insert the Plan Sheet Number where applicable and check each box under the Applicant heading on this checklist to confirm that items are included in your submittal. A staff person will check off each box under Staff when the item is confirmed as included in the submittal package. *If you think an item is not applicable to your project, you must contact the Department prior to your intake appointment to have the items initialed as not required.* We strongly recommend a preapplication conference if you believe items on this checklist should be waived.

Application submittals are accepted Monday through Friday from 8:00 a.m. to 4:30 p.m.

If subject to SEPA review, **four (4) copies** of a SEPA checklist (including original) and all applicable documents and reports are required. See SEPA submittal checklist for additional requirements. SEPA is required for any grading of 100 cubic yards or more and for any work in a critical area.

### General Submittal Requirements:

Staff	Applicant
<input type="checkbox"/>	<input type="checkbox"/> A completed & signed Permit Application form.....
<input type="checkbox"/>	<input type="checkbox"/> Address and Assessor's Parcel No.
