

Housing Value

The following table describes housing values for specified owner-occupied housing units within each value category, that is, one-family houses on less than 10 acres without a business or medical office on the property. These data exclude mobile homes, houses with a business or medical office, houses on 10 or more acres, and housing units in multi-unit structures. Over three-quarters of this housing stock are valued between \$100,000 to \$199,999.
