**Agency**
City of Mountlake Terrace

**Project Title**
Main Street Reconstruction Project

**Beginning MP**

**Ending MP**

**Miles**

**Townships** 27N

**Ranges** 4E

**Sections** 32, 33

**County**

**Project Description**
Describe the proposed project, including the purpose and need for the project.

The project consists of reconstructing 56th Ave W from 230th St SW to 236th St SW, 236th St SW from 56th Ave W to the Mountlake Terrace Transit Center, 234th St SW from 56th Ave W to 58th Ave W, and 232nd St SW from 56th Ave W to 58th Ave W including pedestrian activity area, undergrounding of utilities, and transit access.

### Part 2 Environmental Classification

Part 3 Permits and Approvals Required

Yes  No  Permit or Approval
☐  ☒ Corps of Engineers  ☐  Sec. 10  ☐  Sec. 404
   ☐ Nationwide Type
   ☐ Individual Permit No.
☐  ☒ Coast Guard Permit
☐  ☒ Coastal Zone Management Certification
☐  ☒ Critical Area Ordinance (CAO) Permit
☐  ☒ Forest Practice Act Permit
☐  ☒ Hydraulic Project Approval
☐  ☒ Local Building or Site Development Permits
☐  ☒ Local Clearing and Grading Permit
☐  ☒ National Pollutant Discharge Elimination System (NPDES) Baseline General for Construction
☐  ☒ Shoreline Permit
☐  ☒ State Waste Discharge Permit
☒  ☒ TESC Plans Completed

Yes  No  Permit or Approval
☐  ☒ Water Rights Permit
☐  ☒ Water Quality Certification - Sec. 401
   Issued by
☐  ☒ Tribal Permit(s), (If any)
☐  ☒ Other Permits (List):
   ☐ Local Civil Permit
   ☐ Construction Stormwater Permit
☐  ☒ ROW acquisition required? If yes, amount needed
☐  ☒ Is relocation required?
☐  ☒ Has ROW already been acquired for this project?
☐  ☒ Is a detour required? If yes, please attach detour information.

Part 4 Environmental Considerations

Will the project involve work in or affect any of the following? Identify proposed mitigation.
Attach additional pages or supplemental information if necessary.

1. Air Quality - Identify any anticipated air quality issues.
   Is the project included in the Metropolitan Transportation Plan? ☒ Yes  ☐ No
   If Yes, date Metropolitan Transportation Plan was adopted: 5/1/10
   Is the project located in an Air Quality Non-Attainment Area or Maintenance Area for carbon monoxide, ozone, or PM10? ☐ Yes  ☒ No
   Is the project exempt from Air Quality conformity requirements? ☒ Yes  ☐ No
   If yes, identify exemption, please refer to appendix H in the ECS Guidebook for the list of exemptions:
Pavement resurfacing and/or rehabilitation. Bicycle and pedestrian facilities.

2. Critical/Sensitive Areas - Identify any known Critical or Sensitive Areas as designated by local Growth Management Act ordinances.
   a. Is this project within an aquifer recharge area ☐ Yes  ☒ No
   a wellhead protection area ☐ Yes  ☒ No
   a sole source aquifer ☐ Yes  ☒ No
   If located within a sole source aquifer, is the project exempt from EPA approval?
   If yes, please list exemption
   If no, date of EPA approval

   b. Is this project located in a Geologically Hazardous Area? ☐ Yes  ☒ No  If yes, please describe

   c. Will this project impact Species/Habitat other than ESA listed species? ☐ Yes  ☒ No  Explain your answer

   Is the project within Bald Eagle nesting territories, winter concentration areas or bald eagle communal roosts?
   ☐ Yes  ☒ No

   Will blasting, pile driving, concrete saw cutting, rock drilling, or rock scaling activities occur within one mile of a Bald Eagle nesting area?
   ☐ Yes  ☒ No
### Part 4 Environmental Considerations - Continued

| d. Are wetlands present within the project area? | ☑ Yes ☐ No | If Yes, estimated area of impact in acre(s): _____ |
| Please attach a copy of the proposed mitigation plan. |

### 3. Cultural Resources/Historic Structures
- Identify any historic, archaeological, or cultural resources present within the project's area of potential effects.
  - Does the project fit into any of the exempt types of projects listed in Appendix C of the ECS Guidebook?  
    ☑ Yes ☑ No | If Yes, note exemption below. |
  - A-1 overlay, pavement grinding, and pavement marking not expanding existing wear surface, A-5, B-6 sidewalk within demonstrated limits of previous construction or disturbance |
  - If No: Date of DAHP concurrence
  - Date of Tribal consultation(s) (if applicable)
  - Adverse affects on cultural/historic resources? ☐ Yes ☐ No |
  - If Yes, date of approved Section 106 MOA |

### 4. Floodplains and Floodways
- Is the project located in a 100-year floodplain? ☐ Yes ☑ No |
- If yes, is the project located in a 100-year floodway? ☐ Yes ☑ No |
- Will the project impact a 100-year floodplain? ☐ Yes ☑ No | If Yes, describe impacts |

### 5. Hazardous and Problem Waste
- Identify potential sources and type.
  - Does this project require excavation below the existing ground surface? ☑ Yes ☑ No |
  - Is this site located in an undeveloped area (i.e., no buildings, parking or storage areas, and agriculture (other than grazing), based on historical research? ☑ Yes ☑ No |
  - Is this project located within a one-mile radius of a site of a Confirmed or Suspected Contaminated Sites List (CSCSL) maintained by Department of Ecology? ☑ Yes ☑ No |
  - Is this project located within a 1/2-mile radius of a site or sites listed on any of the following Department of Ecology Databases? ☑ Yes ☑ No | If yes, check the appropriate box(es) below. |
  - ☑ Voluntary Cleanup Program (VCP) |
  - ☑ Underground Storage Tank (UST) |
  - ☑ Leaking Underground Storage Tank (LUST) |
  - Has site reconnaissance (windshield survey) been performed? ☑ Yes ☑ No |
  - If so identify any properties not identified in the database search that may affect the project (name, address and property use). |
  - None identified |

Based on the information above and project specific activities, is there a potential for the project to generate contaminated soils and/or groundwater? ☑ Yes ☑ No |
- Please explain: |

If you responded yes to any of the above questions contact your Region LPE for assistance before continuing with this form.
### Part 4  Environmental Considerations - Continued

#### 6. Noise

- Does this project involve constructing a new roadway?  □ Yes  ✗ No
- Is there a change in the vertical or horizontal alignment of the existing roadway?  □ Yes  ✗ No
- Does this project increase the number of through traffic lanes on an existing roadway?  □ Yes  ✗ No
- Is there change in the topography?  □ Yes  ✗ No
- Are auxiliary lanes extending 1-1/2 miles or longer being constructed as part of this project?  □ Yes  ✗ No

If you answered yes to any of the preceding questions, identify and describe any potential noise receptors within the project area and subsequent impacts to those noise receptors. Please attach a copy of the noise analysis if required.

If impacts are identified, describe proposed mitigation measures.

**a. Please identify any 4(f) properties within the project limits and areas of impacts.**

None

**b. Please identify any 6(f) properties within the project limits and areas of impact.**

None

**c. Please list wild scenic rivers and scenic byways.**

None

#### 8. Resource Lands - Identify any of the following resource lands within 300 feet of the project limits and those otherwise impacted by the project.

**a. Agricultural Lands**  □ Yes  ✗ No  If yes, please describe all impacts.

If present, is resource considered to be prime and unique farmland?  □ Yes  □ No

If Yes, date of approval from Natural Resources Conservation Service (NRCS)

**b. Forest/Timber**  □ Yes  ✗ No  If yes, please describe all impacts.

**c. Mineral**  □ Yes  ✗ No  If yes, please describe all impacts.
9. Rivers, Streams (Continuous, Intermittent), or Tidal Waters
   a. Identify all waterbodies within 300 feet of the project limits or that will otherwise be impacted.
      Fisheries WA Stream No. _______________ Ecology 303d Report No. _______________
      (if known) Reason for 303d listing ________________________________
      Date of Report ________________________________
      Waterbody common name ________________________________
   b. Identify stream crossing structures by type.
   c. Water Resource Inventory Area (WRIA) No. & Name 7 Snohomish

10. Tribal Lands - Identify whether the project will impact any Tribal lands, including reservation, trust and fee lands.
    None

11. Visual Quality
    Will the project impact roadside classification or visual aspects such as aesthetics, light, glare or night sky.
    □ Yes  ☒ No  If Yes, please identify the impacts.

12. Water Quality/Storm Water
    Has NPDES municipal general permit been issued for this WRIA?  □ Yes  ☒ No
    Amount of existing impervious surface within project limits: 256,176 SF
    Net new impervious surface to be created as a result of project: 35,264 SF
    Will this project's proposed stormwater treatment facility be consistent with the guidelines provided by either
    WSDOT’s HRM, DOE’s western or eastern Washington stormwater manuals, or a local agency
    equivalent manual?  ☒ Yes  □ No
    If no, explain proposed water quality/quantity treatment for new and any existing impervious surface associated with
    proposed project.
Part 4 Environmental Considerations - Continued

13. Commitments
   a. Environmental Commitments
      • Describe existing environmental commitments that may affect or be affected by the project - If any.
      None

   b. Long-Term Maintenance Commitments
      • Identify the agency and/or department responsible for implementing maintenance commitments associated with this project.
      None

14. Environmental Justice
    Does the project meet any of the exemptions, as noted in Appendix F of the ECS Guidebook □ Yes □ No
    If Yes, Please note exemption and appropriate justification in the space below. Findings should be confirmed using at least two information sources. Refer to ESC Guidebook for more information.
    1) overlays, pavement rep., pavement grinding, pavement marking, that do not expand the ex. wear surface.
    The project has other elements that are not exempted but the impact is not disproportionate or adverse.
    If no, are minority and/or low income populations located within the limits of the project’s potential impacts?
    □ Yes □ No If no, attach appropriate data to support finding. If yes, describe impacts and attach appropriate supporting documentation.

Part 5 Biological Assessment and EFH Evaluations

1. Do any listed species potentially occur in the project’s action area and/or is any designated critical habitat within the project’s action area? □ Yes □ No Please attach species listings.

<table>
<thead>
<tr>
<th>Affected ESA Listed Species</th>
<th>2. Will any construction work occur within 0.5 miles of any of the following:</th>
<th>3. Does the project involve blasting, pile driving, concrete sawing, rock drilling, or rock scaling activities within 1 mile of any of the following?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spotted Owl management areas (CSAs, MOCAs, designated critical habitat, and/or potentially suitable nesting/roosting/foraging habitat?)</td>

</table>

DOT Form 140-100 EF
Revised 01/2011
Page 6 of 8
Part 5 Biological Assessment and EFH Evaluations - Continued

| Gray Wolf potentially suitable habitat? |  |  |  |  |  |
| Canada Lynx habitat |  |  |  |  |  |
| Columbia White-tailed Deer potentially suitable habitat? |  |  |  |  |  |
| Woodland Caribou habitat? |  |  |  |  |  |
| A mature coniferous or mixed fixed forest stand? |  |  |  |  |  |

4. Will the project involve any in-water work?  □ Yes  □ No

5. Will any construction work occur within 300 feet of any perennial or intermittent waterbody that either supports or drains to a listed fish supporting waterbody?  □ Yes  □ No

6. Will any construction work occur within 300 feet of any wetland, pond, or lake that is connected to any permanent or intermittent waterbody?  □ Yes  □ No

7. Does the action have the potential to directly or indirectly impact designated critical habitat for salmonids (including adjacent riparian zones)?  □ Yes  □ No

8. Will the project discharge treated or untreated stormwater runoff or utilize water from a waterbody that supports or drains into a listed fish-supporting waterbody, wetland, or waterbody?  □ Yes  □ No

9. Will construction work occur outside the existing pavement? If Yes, go to 9a.  □ Yes  □ No

9a. Will construction activities occurring outside the existing pavement involve clearing, grading, filling, or modifications of vegetation or tree cutting?  □ Yes  □ No

10. Are there any Federal listed, threatened or endangered plant species located within the project limits? If yes, please attach a list of plant species within the action area.  □ Yes  □ No

**Determination**

If each of the questions in the preceding section resulted in a "no" response or if any of the questions were checked "yes", but adequate justification can be provided to support a "no effect" determination, then check "No effect" below. If this checklist cannot be used for ESA Section 7 compliance (i.e., adequate justification cannot be provided or a "may affect" determination is anticipated), a separate biological assessment document is required.

□ No Effect

NOAA Fisheries  
USFWS  
Essential Fish Habitat Determination:

□ No Adverse Effect

□ Adverse Effect. Date of NOAA Concurrency

**Analysis for No Effects Determination - If there are any "yes" answers to questions in Part 5, additional analysis is required. Please attach additional sheets if needed.**

5.9 - Some work will occur outside of existing impervious surfaces. On 56th from 230th to 236th, 236th from 56th to the Park and Ride Facility, and on 232nd from 56th to 58th work will occur 2.5 feet outside of existing impervious/pedestrian walkway areas on both sides of the street. On 234th from 56th to 58th work will occur 10.5 feet outside of existing impervious on both sides of the street.

5.9A - Clearing, grubbing, and vegetation removal will occur in the areas outlined in 5.9 above. These activities will result in the removal of grass and shrubbery along both sides of the project. Vegetation restoration will occur at the end of the project.
