- **Current Development Activity:** The Community and Economic Development and Engineering staff are currently processing more than 20 land use development applications. The type of development is split roughly between subdivision of property for fee-simple unit lot ownership and single family residential lots. They will add a substantial number of new single family residential housing in the city.

The applications are comprised of the following residential units:

- Townhomes in land use review totaling 78 residences
- Single-family lots subdivisions in land use review for 27 homes
- Civil construction plan review for 31 townhomes
- Civil construction plans for 56 single family lots
- Projects with pending submittal for processing totaling 107 residential units

The sum total of residential units is 299 units: 192 approved or pending construction, and 107 expected in the coming months.

Civil, building, electrical, mechanical, plumbing, and in some cases, fire permits need to be processed for each residence. This activity does not include individual home construction.

In addition, other projects staff is processing include Sound Transits' CUP for light rail and reuse of Roger's Market site for interim temporary parking, the Civic Campus (City Hall) site development plan and boundary line adjustment applications, Premera Campus Renovation (5-year phased proposal), and a street vacation.

- **Interim Temporary Parking Lot for Sound Transit at former Roger's Market site Approved.** A decision of approval to construct an interim, temporary, parking lot at 23120 56<sup>th</sup> Avenue W (aka former Roger's Market) was issued May 31, 2019. be operational prior to closure of any parking at the existing Transit Center, that bus/shuttle service between the temporary site and the Transit Center is no more than a 10-minute wait, additional bus shelters must be provided, and restoration of the site once it is no longer in use for parking.

The use is allowed for 12 months, with the option of obtaining one 6-month time extension. This will allow time for the development of a longer-term, but also temporary, parking lot next to the Transit Center.

Civil plans are ready to issue at any time. The site may be ready for use by end of July.

The site is currently vacant. The preexisting grocery store (former Roger's Market) was demolished in early 2019.

**OTHER ITEMS OF INTEREST**

Our training unit put together a patrol tactics training day where officers were put in real life scenarios. These scenarios simulated responding to high risk vehicle stops, building searches, crisis intervention, dealing with subjects with mental health issues as well as active shooters.

This training included the use of “simunition” rounds, or simulated ammunition. These rounds fire from pistols and rifles that are identical to our actual firearms however when you are hit with these rounds it leaves a paint mark indicating that you were hit or shot.

This type of training is very realistic and gives the trainers an opportunity to evaluate and critique the performance of the officers. It also gives the trainers the opportunity to present new ideas and tactics as well as refresh officers with the current tactics. The training was received with overwhelmingly positive feedback.
