Single-Family detached houses located in the Town Center are subject to special regulations which limit the extent of remodels and/or additions. Please contact the Planning Department at 425.744.6284 to discuss the applicable regulations and whether they apply to your proposal.

A [Permit Contact Information Form](#) (page 6), and an Application of Affidavit (page 7 & 8), completed and signed, is required to accompany this application.

RESIDENTIAL BUILDING PERMIT SUBMITTAL CHECKLIST

The submittal checklist identifies minimum application elements necessary for the City to accept an application. If any of the required items are not provided, the application will not be accepted at the counter. Addresses **MUST** be assigned before intake. If your site does not have an address, contact the Permit Specialist at 425.744.6267 at least ten business (10) days before your permit application appointment and have an address assigned.

Insert the Plan Sheet Number where applicable and check each box under the Applicant heading on this checklist to confirm that items are included in your submittal. A staff person will check off each box under Staff when the item is confirmed as included in the submittal package. **If you think an item is not applicable to your project, you must contact the Building Department prior to your intake appointment to have the items initialed as not required.**

19.30.80 General residential design standards.

The development of all principal dwellings within the RS districts shall comply with the following design standards upon the effective date of the ordinance adopting this section. Such standards do not apply to dwellings legally established prior to June 1, 2008, except as provided by the nonconformance provisions of this title for building alterations and replacement:

A. Roof pitch must be a minimum of four feet of rise for twelve feet of run (4:12) for at least 80% of the dwelling's roof area.

B. The roof's eave projections must be a minimum of ten inches, not including a gutter around the perimeter of the home, unless the roof pitch is at least 7:12.

C. A perimeter wall of masonry shall enclose the foundation of the home.

D. The front of the home shall have one or more transparent windows totaling at least eight square feet and a decorative door that face the street. On a corner or through lot, any other facade of the home that faces a street shall include at least eight square feet of glass area in a window and/or door. Any accessory structure with a façade greater than twenty feet in length that directly faces and is visible from the street shall include glazing in a total amount of at least eight square feet.

19.30.090 Off-street parking and circulation.

A. Off-street parking is required pursuant to Chapter 19.125 MTMC, as now or hereafter amended, except as otherwise provided by this chapter.

B. To preserve on-street parking capacity, the following applies to residential driveways added to or constructed after June 1, 2008, except as otherwise provided by this chapter:

1. Each single-household residential lot shall have no more than one driveway from a street; and

2. A residential driveway shall comprise no more than twenty-five feet of width [including wings] in any portion of the public right-of-way in which it is located.
